Hiring Committee
Enactus Canada, National Office
Toronto, Ontario

Re: Manager, Programs

Dear Hiring Committee,

I am excited to apply for the Manager, Programs role at Enactus Canada. I lead a youth entrepreneurship program today, I study on an Ontario campus, and I have spent more than four years managing programs and projects that bring many partners to one shared deadline. I would love to bring that combination to the teams Enactus supports across Ontario and Quebec.

As Project Manager and Program Lead at Emole Futures Initiative in Kingston, I run the Black Youth in Business program from concept through workshops, mentoring sessions, and public events. I set program objectives with our executive team, plan four concurrent workstreams, and manage the budget for facilitators, materials, and events. I recruit and supervise program assistants and volunteer mentors, and I work with schools and community organizations as program partners. I also designed a 27-question intake survey and use the results to measure outcomes and improve each new cycle, the same feedback loop that helps a national program grow stronger every year.

Before Emole, I coordinated complex, multi-team projects at the Metropolitan Museum of Art and the Denver Art Museum. At the Met, I aligned curatorial, conservation, registration, education, and design teams for the reinstallation of the Michael C. Rockefeller Wing, which reopened on schedule in May 2025. At the Denver Art Museum, I worked with community advisors to shape exhibitions and public programs. Both roles taught me how to build trust with partners who have different priorities and keep everyone moving toward a shared goal.

I would bring that relationship focus to Enactus student leaders, faculty advisors, and business advisors. I know campus life first-hand as a Master of Digital Product Management candidate at the Smith School of Business at Queen's University and a 2026 graduate of Sheridan College's Graduate Certificate in Project Management, and I am ready to travel to campuses across the region.

Thank you for your consideration. I would welcome a conversation about how I can help Enactus teams turn entrepreneurial ideas into lasting community impact.

Sincerely,

Adekunle Adeniji
